Comments

- (1) Supplements previous information on uranium ore shipments.
The shipment listed in paragraph 1 of the present report as being observed on 3 May 1951 is believed to have consisted of two trains of 46 cars each. In spite of the different dates they may be identical with the two shipments listed in paragraph 2 under 4 May.

(2) These shipments are grain shuttle trains.

(3)

25X1CP

Military Shipping Administration in Fuerstenwalde

A supply dump, presumably an air force installation in Fuerstenwalde

25X1C

Reported in September 1950 as being assigned to a unit in Altenburg which received ammunition from Brest Litovsk. It is believed that the [redacted] which was frequently observed in Jueterbog in March and April 1951 as the receiver of ammunition shipments.

A unit in Kopen, which received ammunition shipments, presumably the local ammunition depot.
